SUMMARY

Entry-level Data Analyst and B.Tech Computer Science student with hands-on project experience in data cleaning, exploratory data analysis, SQL querying, and interactive dashboard development. Skilled in Microsoft Excel, SQL, Power BI, Tableau, Python, and Power Query for transforming raw data into meaningful business insights. Experienced in developing dashboards, tracking key performance indicators (KPIs), identifying trends, and presenting analytical findings. Interested in applying data analytics, problem-solving, and business intelligence skills to sales performance analysis, customer analytics, and data-driven decision-making.

TECHNICAL SKILLS

Data Analytics Tools: Microsoft Excel, Advanced Excel, Power Query, Power BI, Tableau, Jupyter Notebook

Programming & Analysis: Python, Pandas, NumPy, Matplotlib, Seaborn, Exploratory Data Analysis (EDA), Descriptive Statistics, Data Visualization

SQL & Databases: SQL, MySQL, Joins, Subqueries, CTEs, Window Functions, Data Validation, Relational Data Analysis

BI & Reporting: Power BI Dashboards, DAX, Data Modeling, KPI Development, Interactive Reports, Slicers, Bookmarks, Drill-through, Tooltips

Excel & Data Prep: PivotTables, Lookup Functions, Conditional Formulas, Data Cleaning, Missing-Value Treatment, Duplicate Checks, Data Transformation

Professional Skills: Sales Trend Analysis, Performance Tracking, Business Insights, Analytical Thinking, Problem-Solving, Attention to Detail, Communication, Collaboration

CERTIFICATIONS

AI-Driven Data Analytics – Illinois Tech, USA May 2026 – January 2027

AI-Driven Data Analytics – Entri Elevate, N.S.D.C.

- Relevant training: SQL, Excel, Power BI, Power Query, DAX, Python, data cleaning, exploratory data analysis, and dashboard development.

JOB SIMULATIONS

Standard Chartered Banking and Coverage Job Simulation | Forage October 12, 2026(Link)

- Completed an annual credit review for a hypothetical sustainable drinkware manufacturer seeking a loan to expand its sustainability initiatives.
- Conducted quantitative and qualitative credit assessments, including market trend analysis, to evaluate the client's creditworthiness.
- Presented key findings and credit assessment insights clearly to a credit officer.

Deloitte Australia Data Analytics Job Simulation | Forage October 12, 2026(Link)

- Completed a job simulation involving data analysis and forensic technology.
- Created a data dashboard using Tableau to present analytical findings.
- Used Microsoft Excel to classify data, identify patterns, and draw business conclusions.

PROJECTS

Indian Banking Sector Performance and Digital Banking Analytics | Excel, Power Query, SQL | In Progress(Link)

- Working on a banking analytics project examining banking infrastructure, ATMs, digital banking channels, and performance indicators across state, bank, and year dimensions.
- Used Excel and Power Query to standardize inconsistent labels, handle missing or placeholder values, and validate data types.
- Checked duplicate records and invalid negative values; applied median-based treatment to missing values in selected numeric fields.
- Retained a working dataset of 7,864 records for continued SQL validation; Python EDA and a Power BI dashboard are planned.

E-Commerce Sales Performance Analysis Dashboard | Power BI, Power Query, DAX(Link)

- Developed an interactive Power BI dashboard to analyze sales, profit, product performance, customer patterns, and regional trends across e-commerce platforms.
- Cleaned and transformed sales data using Power Query and developed KPI measures using DAX.
- Implemented date and product slicers, bookmarks, drill-through navigation, tooltips, and interactive visualizations.
- Analyzed monthly sales trends, top-performing products, platform comparisons, and state-wise sales performance to support business decisions.

AI Text-to-SQL Web Application | Flask, MySQL, Llama 3, Ollama(Link)

- Developed a Flask-based application that converts natural-language questions into SQL queries using Llama 3 through Ollama and executes approved queries on a MySQL database.
- Implemented multilingual text input, voice input, SQL query explanations, user authentication, and database monitoring.
- Added SQL safety validation, query history, audit logs, PDF report generation, and CSV export.
- Built the application interface using Flask, MySQL, HTML, CSS, and JavaScript.

EDUCATION

Bachelor of Technology (B.Tech) Computer Science Rajiv Gandhi Institute of Petroleum Technology (RGIPT) 2024 – 2028
